FUTURE TECHNOLOGIES L.L.C.

PRESS RELEASE – 019

Future Technologies receives contract for Surface Water Treatment Plants for Two Small Towns for Ethiopia

Dubai, 18th August 2016: Future Technologies L.L.C. today announced that it has been awarded a contract for Water Treatment Packages for Ethiopia from the "Ministry of Water , Irrigation & Energy Ethiopia " in cooperation with a German (Hamburg) company.

(Design, Procurement, Assembly, Testing of Water Treatment Packages)

Total Capacity : 3,500 m^3/d

in BHI-3 Station - 2,203 m^3/d

in BHI-5 Stations – 777,6 m^3/d

Ethiopia's water resources are i.e. Surface water, which comes from from river, lake or fresh water wetland, which can be treated using different methods, such as Ultra filtration Systems, Brackish Water RO. Similarly with other third-world nations, the Ethiopian society depends on consistent rainfall for their water production and consumption

➔ Future Technologies LLC delivers first-rate water solutions in Ethiopia that meet the World Health Organization requirements.
