PRESS RELEASE – 011

Future Technologies receives contract for a Waste Water Treatment Plant for a Defense Client for the Removal of TNT and RDX in Saudi Arabia.

Dubai, 2nd July 2014: Future Technologies L.L.C. today announced that it had received a contract for the Design, Construction and Commissioning of an Industrial Waste Water Treatment Plant that removes TNT and RDX. The client is a Defense Company located in Saudi Arabia and the TNT and RDX present a challenge in the disposal of the Waste Water. FT was the only company to present a workable and economic solution.

"The company's focus on Industrial Water / Waste Solutions including Oil & Gas and difficult to treat waste water projects where we can add value with innovative, unique solutions started with the formation of the company and continues today " said Kai Burger, Chief Executive Officer of Future Technologies L.L.C. .
