FUTURE TECHNOLOGIES L.L.C.

PRESS RELEASE – 023

Future Technologies receives contract for Process Water Plant for Activated Carbon Filtration System for a Refinery in Bahrain

Dubai, 28th December 2018: Future Technologies L.L.C. today announced that it has been awarded a contract for Design & Build of - GAC filter Vessel Package for Absorption of VOC from API separator.

The package consists of two skid mounted GAC Filter Vessels constructed from carbon steel with an upper Platform. The Vessels can be lined up in series or parallel or isolated configuration and sampling connections are provided on inlet and outlet of filters to monitor the VOCs concentration in treated gas.

Client : JGC for Bahrain Petroleum Company (BAPCO) , KSA
